

Product Leader. Technology Strategist. International Speaker.

SHORT BIO

Taisha Fabricius is a Product Leader, Technology Strategist and international speaker whose work sits at the intersection of artificial intelligence, spatial computing, extended reality and the built environment. She helps organizations understand how emerging technologies are reshaping the way humans interact with the physical world, translating complex technical concepts into practical strategies that inspire action.

Through product leadership, keynote presentations and advisory work, she explores how technology can create meaningful impact for people, organizations and society.

SPEAKING TOPICS

- The Physical World Is Becoming Programmable
- The Next Interface Isn't a Screen
- AI That Understands Space
- From Digital Twins to Living Systems
- Leading Innovation at the Edge of Emerging Technology

AVAILABLE FOR

Keynotes · Conference Sessions · Executive Briefings · Panels · Moderation · Workshops · Advisory Engagements · Podcasts

TECHNICAL REQUIREMENTS

Presenter View with scrollable speaker notes visible only to the presenter is strongly preferred. If unavailable, a confidence monitor displaying presenter notes is preferred.

HDMI or USB-C connection. Wireless headset microphone preferred. Space to move freely on stage. Confidence timer preferred. 16:9 presentation format. Reliable Wi-Fi for live demonstrations.
